
Corptec to Debut ION's Vendor Access Control Products at Gartner Conference

South Plainfield, NJ USA and São Paulo, BRAZIL – August 15, 2007 – Today ION Networks, Inc. (OTCBB: IONN.OB) “ION”, a provider of remote management and secure access products, and Corptec, a leading provider of IT services throughout Latin America, announce their partnership and the debut of ION's suite of vendor access control and secure remote management products at Gartner's 12th annual “Future of IT Conference” to be held August 21-23, 2007 in São Paulo, Brazil. Business and information technology executives throughout Latin America attend the three-day conference, which explores how companies can exploit technology to achieve competitive advantage.

ION's products are used by service providers, enterprises, and government agencies the world over to secure remote management access to critical IT and communications assets. Built-in audit features provide for control and tracking of access to, and activities on corporate networks, helping to detect and prevent the “insider threat” as well as aid in compliance with security policies and government regulations. Conference attendees are invited to explore ION's products in the Corptec pavilion on the trade show floor. Conference registration information may be obtained by visiting the Gartner web site at <http://www.gartner.com/events>.

The debut follows Corptec's signing of an exclusive distribution agreement with ION, becoming Latin America's first authorized distributor of ION's complete line of secure remote management products, including the all-in-one SA5600 Secure Appliance; the SM110 Secure Modem, the only modem with built-in multi-factor authentication; and PRIISMS Secure Access Gateway. Under the terms of the agreement, Corptec will commence the sale of ION products throughout South America and Mexico.
