IPC Offers Enhanced Security Features with Addition of ION Networks Product Suite

IPC's Alliance MX System to Feature ION's Secure Remote Management Products

South Plainfield, NJ and New York, NY – August 22, 2007 – IPC, a leading provider of mission-critical communications solutions to global enterprises, and ION Networks, Inc. (OTCBB: IONN.OB), a leading provider of remote management and secure access products, today announced an agreement whereby IPC will provide ION's secure remote management products as part of its Alliance MX System. IPC, the provider of nearly two-thirds of all trading turrets deployed on trading floors worldwide, will use ION's secure appliances and PRIISMS Secure Access Gateway software to conduct real-time remote maintenance of IPC Trading Systems.

“Our customers’ reliance on our communication systems is so important to us that the ability for faster response time to remotely access and maintain IPC’s products is critical. ION’s products provide the security, connectivity, and flow of data needed to provide the highest levels of service to our customers,” said Michael Speranza, IPC’s Vice President of Product Management.

Norman E. Corn, ION’s CEO added, “ION is most pleased to enter into this agreement with IPC, one of the world’s most respected manufacturers of communications systems. It validates our commitment to providing the very best remote management solutions in order for our customers to deliver the best possible services to their customers.”

ION’s products will enable IPC to remotely and proactively troubleshoot and maintain IPC’s systems at client locations throughout the world and deliver real-time visibility into the entire communications infrastructure. Combined with ION’s products, IPC can enhance their service levels while meeting their customers’ security and compliance requirements.

About IPC

IPC is a leading provider of mission-critical communications solutions to global enterprises. With more than 30 years of expertise, IPC provides its systems and services to the world’s largest financial services firms, as well as to public safety; government; power, energy and utility; and transportation organizations. IPC offers its customers a suite of products and enhanced services that includes advanced Voice over IP technology, and integrated network and management services to over 40 countries.

Based in New York, IPC has over 1,200 employees throughout the Americas, Europe and the Asia Pacific regions. For more information visit www.ipc.com.

About ION Networks, Inc.

ION Networks, Inc. (OTCBB: IONN.OB) provides remote management and secure access products that enable service providers, equipment manufacturers, government and military agencies, and enterprise companies to remotely manage, monitor, and secure critical voice and data networks. Over half the world's top telecommunications firms rely on ION technology to ensure quality service for their customers. With over 60,000 devices deployed worldwide, ION's products are currently in use on six continents. For more information, visit www.ion-networks.com or call +1 908.546.3900.

This press release contains forward-looking statements that involve a number of risks and uncertainties. Forward-looking statements may be identified by the use of forward-looking terminology such as "may," "will," "expect," "believe," "estimate," "anticipate," "continue," or similar terms, variations of those terms or the negative of those terms. Important factors that could cause actual results to differ materially from those indicated by such forward-looking statements are set forth in the Company's filings with the Securities and Exchange Commission (SEC), including the Company's Annual Report on Form 10-KSB, the Company's Quarterly Reports on Forms 10-QSB, and other filings and releases. These include uncertainties relating to technological changes, product development, competition, protection of intellectual property, working capital balance and reliance on several key customers and members of management.
